

Who We Are

Nova Ukraine is a nonprofit organization dedicated to providing humanitarian aid to the people of Ukraine and raising awareness about Ukraine in the United States and throughout the world.

The Infrastructure and Energy team at Nova Ukraine is committed to fostering resilient communities through sustainable and innovative energy solutions. Amidst the energy crisis exacerbated by the conflict, our mission focuses on deploying renewable solar power solutions to critical facilities, particularly schools, ensuring they remain operational and self-sufficient.

The Most Effective Projects*

50 Points of Invincibility warming centers for vulnerable Ukrainians were establishing.

More than **4,455,742+ people** used the stations' services from December 2022 to August, 2025.

In these Points, people feel safe and warm. For passengers with children, we have family spaces where children can find gaming activities or spend quiet time, such as coloring or reading a book from our project library.

1035 + different type of stoves and gas heaters were delivered to Ukrainians who were left without access to electricity, gas or heat after the shelling of critical infrastructure by Russia during winter 2024.

1263 generators in one month's time were brought and delivered to people by Nova Ukraine and partner Razom for Ukraine

7 clean water stations were built during 2023-2025 to provide the population with drinking water after the Kakhovka dam was blown up by Russia.

Alternative Energy with partner Nevados

Launched project Energy4Ukraine:
Supporting Hospitals and Schools with Alternative Energy Solutions

*as of August, 2025

**FOSTERING
RESILIENT
COMMUNITIES
IN UKRAINE!**

Our Current Initiatives

Renewable Energy for Resilient Communities

Establishing independent, renewable energy sources for schools and critical facilities, laying a foundation for resilient communities that can thrive despite the ongoing energy crisis.

Construction of Bomb Shelters

Enhancing community resilience through the construction and installation of bomb shelters, ensuring safe havens for civilians amidst ongoing conflict.

Read more
about one of the
projects

Water Wells and Purification

Implementing water projects that include drilling wells and setting up purification systems to secure access to clean water, further supporting the health and resilience of communities.

Winter Preparedness and Reconstruction

Addressing the immediate needs for shelter and clean water through targeted campaigns, ensuring families and communities remain safe and warm, further contributing to the resilience of Ukrainian society against war-induced adversities.

PLEASE Help Us Support Resilient Communities!

We want to support the most vulnerable people. At the same time, we want to develop strategic approaches to prevent unexpected situations.

In addition to financial donations, we are also accepting mail in donations.
