SUPPORTING UKRAINIAN AMPUTEES

As a result of the war, an estimated 20,000 to 50,000 Ukrainians have had to undergo amputations, often losing one or more limbs. After over 750 days of brutal fighting, this once unimaginable statistic has become a stark and painful reality.

Nova Ukraine is proud to collaborate with the Protez Hub Foundation, an organization championing the development of the limb prosthetics industry in Ukraine. Together, we aim to provide a comprehensive resource for everything related to limb prosthetics in Ukraine, from essential information for the injured to a list of service providers and free educational courses for professionals.

PLEASE HELP US SAVE LIVES

Many Ukrainian hospitals lack medical supplies and are regularly targeted by the Russians in violation of the Geneva Convention. Access to basic medical and surgical supplies determine whether a patient lives or dies.

In addition to financial donations, we are also accepting mail in donations of unused medical supplies and equipment.
